

Vacancy Announcement

Statistician

Are you a talented and motivated Statistician looking to make a meaningful impact? We invite you to join our dynamic team at the BRAC James P Grant School of Public Health (JPGSPH), BRAC University.

About Us: Established in 2004, JPGSPH is an esteemed educational and research institution dedicated to teaching, research, and service. We aim to not only impart knowledge but also to serve as a center of excellence in knowledge creation through cutting-edge research and practical training.

The Opportunity: We are seeking a Statistician to join our Hub for Climate Change, Environment, and Health (CCEH). Our hub collaborates with leading national and international organizations and research institutes on multiple projects focused on the intersection of climate change and health. The successful candidate will apply their statistical expertise to collect, analyze, and interpret data to help drive informed decision-making and contribute to the success of our projects.

Join us and be part of making an impact through data-driven leadership.

As a Statistician, you will:

- **Drive Innovation**: Collect, analyze, and interpret data to drive informed decision-making and innovative solutions.
- Collaborate and Learn: Work alongside experts and gain exposure to leading national and international organizations.
- Make an Impact: Contribute to generating critical evidence on global issues concerning climate change and its impact on health and wellbeing through meticulous data analysis and manuscript writing.

Requirements:

Education: Masters degree in Statistics, Applied Statistics Economics, Mathematics, Data Science, or a related field.

Experience: Proven experience as a Statistician, Data Analyst, or in a related role.

<u>Technical Skills:</u> Proficiency in statistical software such as R, Stata, or Python. Experience with data visualization tools such as Tableau, Power BI, or similar. Ability to work with large HH and longitudinal datasets and conduct complex data analysis.

Analytical Skills: Strong analytical and problem-solving skills with a keen attention to detail.

<u>Communication and Collaboration Skills:</u> Excellent communication, collaboration, and time management skills to effectively present findings, work with stakeholders, and manage multiple projects

Salary: As per JPG policy.

How to apply: Interested candidates are advised to send an application with a complete CV to:

recruitment.sph@bracu.ac.bd by Wednesday, 17th July 2024. Please mention in the subject line of your email: Statistician.

Only shortlisted candidates shall be invited for the interview. All tests & interviews will be held in Dhaka. We are an equal opportunity employer and encourage applications from qualified women and minority candidates.

The Organization reserves the right to make an appointment at a grade lower than advertised.

BRAC JPGSPH regrets to inform you that it is not liable to reply to all the submitted applications.
