

GOOD GOVERNANCE IN THE HEALTH SECTOR

Participants: 26

Duration: 8 days

- 3 weeks' course and 3 days (Monday, Wednesday and Saturday in a week).
- 3 to 4 hour online sessions per day.

Date: 13-29 December, 2021

Venue: Online (Zoom platform)

Brief:

This eight (8) day **Online short** course will focus on 'Health Systems Strengthening (HSS) towards Universal Health Coverage (UHC)'. The short course theme has been divided into four interrelated sub-themes: **(i) Overview of Governance, (ii) Overview of Health Governance, (iii) Health Governance: Standards and Practices, and (iv) Health Governance: Ground Realities and Way Forward.** The course is a part of the SIDA funded project titled "Making Bangladesh's Healthcare Systems More Responsive and Participatory". Experiential learning (learning by doing) methodologies will be used to deliver the course lessons. The short course is designed for health care practitioners, programme/policy planners and managers in the government, NGO, and private sector.

The Project is coordinated by Dr Proloy Barua, Assistant Scientist with Advisory support by Dr. Rizwan Khair and team members are Mr. Kazi Hasan Imam, Lead Facilitator (external), Dr Kazi N.H. Haque, Assistant Scientist and Md. Munirul Islam, Senior Project Officer, BRAC JPGSPH, BRAC University.

Facilitator

This course will be conducted by notable public health experts from relevant ministries and departments of the Govt. of Bangladesh, BRAC James P Grant School of Public Health (JPGSPH), North South University, University of Dhaka, World Health Organization (WHO), Bangladesh Public Administration Training Centre (BPATC) and Directorate General of Health Services (DGHS).

Organised by:

Centre for Professional Skills Development in Public Health (CPSD),
BRAC James P Grant School of Public Health (BRAC JPGSPH), BRAC University and
Bangladesh Health Watch (BHW)
